

## ELV4

A heat only line voltage thermostat offering 5/2-day programmable settings for ease and greater comfort.

The ELV4 line voltage heat only thermostat provides dependable comfort. A cost effective, energy saving programmable thermostat for baseboard, cable and ceiling heat. With its flexibility in programming end users will benefit from the energy efficiency with savings on utility bills.

**UPC:** 0 21079 06004 7

**Dimensions width:** 2.70" (68.5mm)

**Dimensions height:** 4.70" (119.4mm)

**Dimensions depth:** 2.40" (60.9mm)

**5/2-day programmable line voltage**

**Warning! Risk of fire if not installed properly. For applications such as baseboard electric heat (resistive), max load is 15 Amps from a 20 Amp circuit breaker. For heat applications such as hot water circulator pumps (inductive), max load is 1/4HP@120 Volts. This thermostat is not compatible with heating appliances that contain both an electric heating element (resistive) and a blower fan (inductive load). This product should be installed by a licensed electrician.**

### FEATURES

- Easy to use
- Easy to read display
- Pre-programmed: 4 periods per day
- Temporary override and manual hold
- 3 year warranty
- Selectable fahrenheit/celsius setting
- Adjustable temp swing (differential)
- Positive on/off switch
- Optional wall plate
- UL approved
- Requires 2AA Alkaline batteries
- Mercury free

### FOR USE ON

- 1 stage heat only: single or double pole
- 120/240 VAC Systems up to 15 AMPS
- Hydronic (hot water) systems with motors up to 1/4HP
- 120V: 1,800 Watts (resistive)/240V: 3,600 Watts (resistive)

### NOT FOR USE ON

- Conventional 24V heating/cooling systems
